

Instructions for attaching picture & resize

Click on **Message**, then **New Message**,

To: _____ (You can do this by entering a call sign or address from your CONTACT list)

Subj: **Picture attachment**, via (mode)

Click on: **ATTACH**

Click **ADD** at top of page, this lets you browse your computer, find a picture and right click under it if it only has a JPG number and RENAME.

Then click on the picture, at top – (name will go to bottom)

Click on OPEN, then click on **EDIT/RESIZE Image**

Next page click on **RESIZE**, and reduce it to 15.0 kb, click on **Change Size, then SAVE**

Then on top left of page, click on **Save Changes**, then next click on **Finished** and it will go to the message attachment.

Then you can write something in the message area, ie Picture Attached -- via packet, telnet, vara or ardop.

Post to Outbox and send via whatever mode you choose.
